Dear Friends:

We simply wanted to write and express our gratitude to you both for your wonderful rendering of the mills at Clear Springs. Your attention to the finite details and your historical perspective are evident throughout your work, and help bring the ink to life!

We appreciated your willingness to meet together to discuss various ideas on this scene, and particularly your understanding as we took so long to finally feel comfortable about going ahead with this project.

Thanks you for applying your talent to life at Clear Springs.

Most sincerely,

Art & Donna Bert
