Re: Historical recreation of Jollification

Dear Mr. Callison:

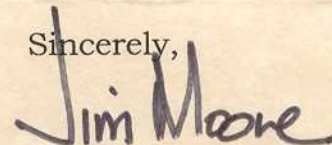

We have received the fine drawing you did for us of the recreated village of Jollification. The Board is very pleased with the final product and are proud of the prints.

We had concerns over commissioning a drawing of the village. Several of our Board members have not had good experiences in commissioning work. However, you were very helpful in your research of both the area and the era of the period we were trying to recreate.

Your preliminary sketches were very important for us and also gave us a choice of views. You were also very patient of our recommended suggestions.

Mr. Callison, we are very pleased with our drawing and the prints. You have done a fine job. Thank you.

Sincerely,

Jim Moore
